Illinois Militia at Danville Saved by the A. R. U.-Coroner's Inquiry Into the Unfortunate Shooting.

SPRING VALLEY, July 10 .- Company C, of the Fifteenth Regiment, Captain Conrad commanding, came in collision with the mob at this place to-day, and after patiently enduring volley after volley of stones fired into the mob, killing one man and wounding several others. The casualties are as follows:

DOMINICK BARLMER, Italian, shot through the head; killed. JOHN SALOLI, Italian, shot through the breast; killed.

WALTER GREGORY, deputy, ribs broken; badly bruised. LUSH KOLP, deputy, shot in thigh.

S. T. POWELL, deputy, shot twice in face. UNKNOWN ITALIA rioter, shot by

UNKNOWN RIOTER, hand and arm badly lacerated by bayonet while the militia was clearing the streets.

The fight occurred at 4:30 o'clock this afternoon, when a Rock Island train bearing the troops pulled into the depot. At the time of its arrival a large mob of Poles, Lithuanians and Huns was gathered upon the hill overlooking the depot. The arrival of the train was greeted with yells and jeers, and stones began to rattle upon the depot platform before one of the soldiers had left the cars. As the men filed out on the depot platform they were greeted a chorus of yells, and the stones around them. raised his hand mob to cease throwstones. It obeyed him for an stant, but seeing the troops do nothing regained its viciousness and sent volley after volley of stones at the soldiers, at the same time drawing closer and becoming more threatening. Captain Conrad ordered his men to aim, and as more stones came at the soldiers he gave the word to fire The mob broke for the timber when the firing began, and has not reassembled. The troops went back to Chicago to-night, Early this morning as a party of deputies was traveling from Princeton to Spring Valley in wagons some strikers in ambush fired upon them, wounding deputy S. T. Powell in the face. The fire was returned, and one man was seen to fall. He was carried off by his companions, and the extent of his

injuries is not known.

A Serious State of Affairs. OTTAWA, Ill., July 10.-Affairs at Spring Valley are taking on an ominous look, and to-day the commanders of the Rock Island and Galesburg companies sent a long communication by wire to Adjutant-general Orendorff detailing the situation. The substance of the dispatch was that the miners have so intimidated all classes of people with threats of what will happen after the troops are removed that every obstacle is placed in the pathway of the soldiers and all classes act in a hostile manner. Mayor Jackson, who is evidently terrorized, ordered the soldiers out of town this morning, but they refused to obey. The telegraph operator was frightened away and one of the soldiers is at the key. The store keepers have been made to refuse to sell supplies to the troops and the latter have in consequence taken possession of the company store, soldiers acting as custodians in place of the terrorized clerks. So far has this reign of anarchy extended that the woman upon whose property the well from which the troops draw water is situated begged piteously of the officers to secure water elsewhere, as the Anarchists gave her until to-day to refuse water upon penalty of burning her house to the ground. There are 129 soldiers and seventy-five well-armed deputies upon the ground, a force sufficient to prevent the Anarchists obstructing trains and to hold meir own in case of an attack, but the officers consider it good policy for the State to increase the force in order that a showing may be made that will wholly cow the turbulent Huns and Lithuanians.

Italians Seeking Ammunition. MORRIS, Ill., July 10 .- United States deputy marshals to the number of fifty have arrived at Coal City to protect the Santa Fe Railway Company's property, and Sheriff Daniels is still there with his deputies. men here used every effort last night and succeeded in suppressing the attack on the militia in the camp near Danville Junction. Neighbors of Miss Clara James and Mrs. Michael Glennan, the two women who were killed by the militia at Grape Creek yesterday, were much incensed over the unfortunate affair. It would have been an easy affair to have collected an attacking crowd of two thousand miners. The leaders called on the managing committees of the A. R. U. and notified them what was up, and it was with extreme difficulty that the railroaders could induce them to give up the prospective battle. The funeral procession of Miss Clara James to-day was headed by five hundred miners and four hundred railroad men as a labor guard The coroner's jury in its verdict says there was no provocation whatever and that it is a case of unjustifiable homicide, and recommends the authorities to take proper legal action in the ase and bring the of-fenders to justice. The soldiers claim they were fired on by the miners in ambush, and that Mr. James, father of the murdered girl, stood in the doorway of the house and shot at them with a Winchester. This Mr. James denies. A reporter who went to Grape Creek yesterday claims he was

Rock Island Train Wrecked. LASALLE, Ill., July 10.-Another train was wrecked between this city and Utica on the Chicago, Rock Island & Pacific road to-day, and nineteen cars left the track The spikes holding the rails in place had been drawn out, causing the accident. The track at this point is on the brink of the canal, and it is marvelous that the entire train did not go into the water. The engineer and fireman saved themselves by jumping. A wrecking train from Bureau red the tracks, and trains are able to pass again.

Gashed by Strikers. TACOMA, Wash., July 10.-Strikers assaulted a Northern Pacific employe for the sixth time within a week, last night. The victim was Henry Kirchner, janitor of the superintendent's office. He was followed by several strikers when he went home to supper, and waited until he supposed they had disappeared. Just after he left the house eight or nine men fell upon him with knives. Eight bad gashes were made in

DEMING, N. M., July 10.-An attempt was made last night to wreck a special train containing five hundred troops from Fort Bayard en route to Trinidad and Raton. The section foreman discovered four switches open in the Deming yards just before the train arrived. Members of the local lodge, A. R. Bridge Burned. TRINIDAD, Col., July 10:-Striking coal miners or A. R. U. men burned a bridge 120 feet long on the Aguilar branch of the Denver & Gulf road, near Victor Station, last night. The union miners who are on strike were incensed because the United Coal Company had opened up the mines with nonunion men.

G. A. R. Standing by Governor Matthews-Trains Moving on the Wabash and Clover Leaf.

Special to the Indianapolis Journal. HAMMOND, Ind., July 10 .- At an early hour this morning news was received here that a gang of incendiaries had overpowered the watchman of the Monon bridge over the Little Calumet river, about four miles south of this city, and set that structure on fire. General Robbins immediately detailed Company E, Third Regiment, of Elkhart, to that point. By the time the fire was put out nearly four spans, or about seventy feet, had burned. A wrecking train from Monon was soon on hand and the men were at work all day repairing the bridge under guard of Company E. To-night General Robbins detailed Company H, Fourth Regiment, of Warsaw, to guard the Erie bridge over the same river about three miles east of

A report was brought here late to-night from Lansing that an attempt to burn the Panhandle bridge at Hart's Ditch, east of Maynard, would be made to-night, but the report could not be traced to any authentic source. Trains have been running on all the roads to-day, except the Monon. For the first time in ten days freight trains are running over the Erie. The Monon people are running their trains from Maynard to Chicago over the Panhandle.

The only excitement of the day was

when a special train over the Erie came

in with Company D, Fifteenth United States Infantry. This is the company which did the shooting Sunday and had been sent over the road to inspect it. The train came as far as this place and the troops reported to General Robbins, who told Capt. Hartz that their services were not needed, and the train returned to Chicago. People thought the company had returned here to guard the tracks and many expressions of disapproval were heard. The soldiers in camp have received orders to sleep on their guns to-night, as trouble is looked for at any minute. A court-martial was called this afternoon to try private Charles Frante, Company B, Second Regiment, of Rochester, on a charge of disorderly conduct. The young man was out of camp last night, and becoming intoxicated, did some indiscriminate shooting in one of the Pullman sleepers standing on the Monon siding. Lieutenant Colonel Studebaker, of the Third Regiment, conducted the court-martial and Frante was fined \$2.50 and publicly reprimanded at dress parade.

MILITIA POORLY FED. The boys are complaining about the food they get, many of the stores in the town having refused to sell them anything and whenever they can get outside the camp they may be found in one of the restaurants buying whatever is to be had. Very few have reported at sick call and those who have are only affected with minor ailments. The only excitement in camp today was when one of the soldiers would be brought in under arrest for being found outside the lines without a permit. Captain Knosman, of Company H, Second Regiment, of Knox, was given leave of absence for July 11, to return home at Knox. He called out on duty without having time to make arrangements for running his office during his absence. He will report for duty Thursday. The Muncle Fencibles, Company G, Fourth Regiment, were left out of the list of companies sent last night. The Muncie boys are fine lookers and all rank high. Adjutant-general Robbins issued an order to-day that no Chicago Times would be allowed in camp.

About twelve hundred people attended the funeral, this afternoon, of Charles Fleischer, the victim of Sunday's shooting. The services were held in the Lutheran Church and were conducted by Rev. F. H. Hertzberger. Campbell and Vasiter and Miss Fleming, who were wounded in Sunday's riot, will recover. The announcement, tonight, of the arrest of president Debs, in Chicago, created no little excitement among the strikers at this place. President Shields said that he had been expecting this report for some days, but that he was not alarmed

in the least over the matter. When a Journal man told General Compton, at Camp Gunder, of the arrest, he said, in very forcible language, that it was a "good thing and should have been done several days ago," The strikers do not seem as confident of winning the strike as they were a few days ago and many of them act as if they wished the matter were over. A supper and dance is being held in Hohman's Opera House to-night. Quite a large crowd is in attendance. Vice President Howard, of the American Railway Union, delivered a short speech relative to the situation.

Warrants Against Soldiers.

Associated Press Dispatch. HAMMOND, Ind., July 10.-Minor officials of the State of Indiana and citizens of this town are determined that the federals high in power shall be made to answer for the death of Charles Fleischer, one of the rioters shot down by soldiers of the Fifteenth Infantry Sunday afternoon. Warrants, charging the soldiers with murder, have already been issued, and it is said that there is a movement on foot to swear out similar papers charging the head of the government and his chief executive assistant with being accessories before the fact. The claim is that the soldiers fired into a body of peaceful citizens, and on this claim the widow will institute proceedings against the government for damages.

DEPUTIES BOYCOTTED,

And Run Out of Clinton by Strike Sympathizers. Special to the Indianapolis Journal, CLINTON, Ind., July 10 .- To-day has been

Eastern Illinois management. Five deputy sheriffs were chased out of town by a crowd of railroad strikers and local sympathizers and their arms taken from them. Thirteen deputy United States marshals came this morning, but the sympathizing coal miners applied the boycott to the local boarding houses and hotel keepers, so that they could not find places to board and had to leave. The strike is now affecting the farmers, as they are unable to move their wheat crop. The country is now fast waking up to the situation. There will be a strong company raised here, composed of citizens and workingmen, to suppress any attempts at destruction. There is a strong sympathy for the A. R. U. and hundreds of white ribbons are seen. The C. & E. I. pumphouse is shut down, and street sprinkling has ceased. To-morrow night the town will be in darkness, as the company furnishes water for the local electric-light plant. Moving Trains.

Special to the Indianapolis Journal. TERRE HAUTE, Ind., July 10 .- Ten United States marshals and thirty-five deputy sheriffs were at Norton Creek, on the Chicago & Eastern Illinois, this morning to protect the company employes while they removed the obstructions placed on the track yesterday by Hungarians and Polish miners. There was no interference, and trains were running both ways on the road. The marshals are remaining on the ground, however, as the miners in that locality are a vicious set. All passenger trains, except the two night trains north and south, are running on schedule time with nonunion engineers and firemen. The two trains will not be put on for a few days yet. A through freight train each way was sent over the road to-day. All the Vandalia passenger trains were on time and an increased number of freight trains were moved. The accumulated freight is rapidly being distributed along all divisions. One trainload of live stock came out of St. Louis this afternoon. here.

Special to the Indianapolis Journal. BRAZIL, Ind., July 10.-The most exciting incident of the railroad strike this locality occurred this morning. A man named Smith, claiming residence in Chicago, arrived in the city to take a position as fireman on the C. & E. I. passenger train. The railroaders and several of their sympathizers learned that Smith had hidden in a barn near the Vandalia depot, fearing molestation. A crowd soon surrounded the barn, routed Smith out and handled him severely, then started him south and a crowd chased him out of town. It is reported that about twenty-five employes have been secured by the com pany and are camping near the roundhouse, cooking utensils having been provided for them, as it would be difficult for anyone termed a "seab" to find lodging in the city. Ten deputy marshals are in the city, presumably to prevent interference with the new men in case any attempt at violence should be made by the strikers. It is said that Smith, who was run out o town this morning, is the same man the strikers fired out of the city Sunday. He had his mustache shaven off.

Dynamite Bomb on C. H. & D. Trncks.

Associated Press Dispatch. LIBERTY, Ind., July 10 .- A large dynamite bomb was found on the C., H. & D. railroad tracks here by the crew of the midnight freight. The fuse had burned within an inch of the bomb when discovered. It is supposed that the bomb was placed on the night passenger train from Cincinnati to Chicago and fell off here. The road carries Pullman sleepers, and it is thought that the bomb was placed on board by strikers.

Wabash Strike Not a Success.

Special to the Indianapolis Journal. PERU, Ind., July 10 .- The officials of the eastern division of the Wabash lines with headquarters in this city feel confident that the great strike as far as all lines east of Tilton, Ill., are concerned is practically over. There are more than enough new men on hand vaiting for positions, and the outlook for the striking employes is indeed gloomy. Last night limited trains No. 42 and 43 were run through on time, the first for over a week, and to-day all through and local passengers came in practically on time. One east and west-bound local freight went out, and the probabilities now are that by Wednesday all kinds of freight will be running on time. Not one day since the fight began has there been any kind of disturbance in this city, the bitter feeling being confined to outside parties. No molestation of any kind has been offered the nonunion men. Lake Erie trains, both freight and pas-senger, have not for one day been remiss in running. It is not believed that the local unions of this city will take a hand in the general strike. Well-Behaved Strikers.

On the Big Four two local freights were sent out. The Big Four shop is closed, only ten men being employed, and it will remain shut down until Aug. 1. Calling It by the Right Name.

To the Editor of the Indianapolis Journal: A recent dispatch from Washington says: "The administration will not cease its efforts until the constitutional right of every man to obtain employment free from intimidation is thoroughly established." The connection makes it probable that this is the language of Attorney-general Olney. If it is, it adds to the debt the people owe him for his wise directions in relation to the strike. That any other opinion could ever have been entertained concerning the violence which attends strikes is a wonder. No one ever objected to the striking while it left the vacated place for one of the thousands of those who would be only too glad to till it. All the inconvenience and expense and destruction of life and property which this strike is causing are owing to a purpose of the monopolists of the most profitable employments to keep others from taking the places they vacate. Their tirades against capital are only to conceal their own selfish purposes. U. L. SEE. Indianapolis, July 10.

THREE EARTHQUAKES

CONSTANTINOPLE SHAKEN BY THE WORST SHOCKS IN HER HISTORY.

Many People Buried Under Houses and a Number Killed at Stamboul -Vigilant Again Beaten.

CONSTANTINOPLE, July 10 .- Two violent earthquake shocks were felt here at 12:30 p. m. Each shock lasted about twenty seconds. They did much damage to the city, and several people are reported to have been killed. All the public offices, the banks and the bourse have been closed. The population is so terrified that many thousands of people are camping out it the open air. Two disastrous fires have already occurred, and telegraphic communication is interrupted.

The correspondent of the London Standard says: "At the moment of the first earthquake I was in the dining room of the Ottoman Bank, situated at the summit of the lofty building occupied by the bank. Suddenly the whole structure rocked to and fro most violently. In company with others, I hastened to the staircase. Another violent shock occurred and every instant I expected the huge building to fall. Passing through Pera, I entered the well-known public garden Petits Champs. It was crowded with panic-strick-en inhabitants. In Galata near the bourse, a building fell, burying the inmates. The streets were strewn with telegraph poles and wires .. At Stamboul, as on this side of the water, all the shops and offices are closed and the people are in the streets. The Minister of Police superintended the removal of the injured and dead. Another shock occurred at 4:15 o'clock and considerable more damage was done. Numerous cracks are to be seen in the walls of the Ottoman Bank and other buildings. These are the worst shocks ever felt in Constantinople.

Pope Leo in Good Health.

ROME, July 10 .- There is absolutely no truth in the sensational rumors circulated regarding the state of the Pope's health. This is confirmed by the fact that his Holiness yesterday enjoyed a walk in the gardens of the Vatican. The Pope to-day gave audience to the Austrian embassador, Count Revertera-Salandra, and to other important personages. Dr. Lapponi, the physician his Holiness, when questioned to-day, said regarding the Pope's health that the sensational reports circulated in the United States were pure inventions. His Holiness was not even suffering as much as others from the great heat now prevailing in Rome. He takes daily walks in the gardens of the Vatican. He added that the Pope will shortly take his annual change of residence by going to the Pope Leo IV summer villa in the Vatican grounds,

Anti-Anarchist Measures Opposed. PARIS, July 10 .- The proposals of the government regarding the trials of Anarchists, etc., set forth in the bill introduced in the Chamber of Deputies, yesterday, are strongly opposed by the extreme section of the press. The clauses providing that persons in citing the acts of violence are to be tried summarily instead of by jury, and that the judges are to have power to pass sentences of banishment, are severely criticised. In spite of this opposi tion it appears certain that the bill will pass, with the possible addition of an amendment giving the press more freedom in reporting Anarchist trials. The Socialists will demand the shelving of the government measure and will move the previous question. This motion will certainly be re-

Yale Athletes Too Patriotic Abroad OXFORD, England, July 10.-Steward Shirrall and George Sanford, of the Yale athletic team, were present to-day in court, charged with setting off fireworks in High street on the Fourth of July. They both pleaded guilty, but in extenuation said they were ignorant of the law and they desisted when warned by the police. They were released upon payment of costs. L. P. Sheldon, Yale's broad jumper, has sprained his knee, and it is thought im-

probable that he will be in form by Monday Vigilant Beaten Again. HUNTER'S QUAY, July 10 .- The Ameri-

can yacht Vigilant was beaten by the Britannia again to-day. The two yachts crossed the finishing line as follows: Britannia, 6:14:54; Vigilant, 6:20:46. Consequently the Britannia crossed the line five minutes ahead of the Vigilant and with her time allowance of three minutes wins by 8:52. There is little doubt in the opinion of yachtmen that the Britannia is likely to prove the faster boat throughout.

The controversy started in the Democratic party over Cleveland's use of the regular army at Chicago indicates that no matter what happens the event is bound to illustrate the absurdity of the Democratic party. The fact is the party is no. made to grapple with great events. Face to face with them it is paralyzed by its

own network of impractical theories.

BAD CASE SCALL HEAD Two Doctors Do No Good. Tries CUTI-

CURA. First Set Helps. Four . Sets Completely Cure. Our baby Pearl was born Nov. 23, 1891. From her birth she had Scall Head until she was four months cld, then it be-

came worse and came out in small white pimples, and then spread to be large yellow scabs. We tried two doctors, but they could not do it any good. So we tried CUTICURA REMEDIES, giving her a thorough washing three times a day with CUTICURA SOAP, and then using the CUTICUEA. The first set we tried helped her. and before we used four sets she was perfectly cured. At the age of six

Impure Blood

Boils, Pimples, Humors,

Cured by Hood's. The following testimonial from Mr. George W. Schulz, a printer at Newell, Iowa, is of special interest as it bears directly upon the bloodpurifying qualities of Hood's Sarsaparilla: "For about two or three years I was troubled with pimples or boils on my face and body,

Cetting Worse and Worse I read about the good Hood's Sarsaparilla was doing and decided to try it. Shortly after I commenced taking Hood's Sarsaparilla to my great surprise the eruptions began to disappear. Now I am free from them. I had at previous times thought that if I did not rid my blood of

this impurity it might lead to scrofula or some other terrible disease. I cheerfully recommend Hood's Sarsaparilla to all those who need a blood purifier." GEO. W. SCHULZ, Newell, Iowa. Hood's Pills are hand made, and perfect in proportion and appearance. 25c. a box.
